**Vincent Coleman M.D., Ph.D.**  
**Jeffrey M. Henderson, M.D.**

**Education And Screening Tool**  
Prior to Tuberculin Testing  
(Annual)

Since your child's last skin test:	Yes	No	I don't know
Has anyone in your family had tuberculosis?			
Do you know of any situation where your child was around an adult who has been diagnosed or suspected as having TB?			
Was your child born in or has your child visited a foreign country where there is a lot of TB?			
If yes, which countries?			
TB can cause fever of long duration, unexplained weight loss, weakness, chest pain, a bad cough, hoarseness, or coughing up blood. Has your child been around anyone who has these problems?			
Has your child had any of those problems?			
To your knowledge, has your child had contact with anyone who is/has been an intravenous (IV) drug user?			
HIV infected?			
In jail/prison?			
Recently moved to the US from a foreign country?
